CIRCUIT COURT

Proceedings of Yesterday—Petit Jurors Excused Until Next Monday.

In the Mason Circuit Court yesterday a number of important cases were heard and disposed of. Yesterday began the fifth week of the March term of court.

The case of the Spahr Brick Co. against the Cooper Construction Co. was the first on the docket. Before entering into the action, the garnishee in the case, the Washington Improvement Co., was ordered to pay into the court the sum of \$3501.81, which sum it has in its hands owing the defendant. The Cooper Construction Co., having failed to answer the court, having been duly summoned, it was ordered that the Spahr Brick Co. recover from the defendant the sum of \$1409.20 with interest from the date of the filing of the petition.

In the case of the Louisville Warehouse Co. against J. M. Lee, Judge Newell gave peremptory instructions to the jury to find for the plaintiff and to find nothing for the defendant on a counterclaim. The plaintiff was allowed the sum of \$12,984.07, the entire amount asked for.

The regular jurors were excused until next Monday, April 30.

Robert Beckett, charged with breaking a storehouse, was tried on the charge. Attorney J. M. Collins was appointed to defend the boy, who is thirteen years of age. On motion of the defendant through his counsel he was ordered sent to the State House of Reform to remain until he becomes of age. "Beck" was caught stealing from the Chavandis Five and Ten Cent Store several weeks ago. Once before he was caught stealing from the McNamer Bakery on West Second street.

YUM! YUM!

My! But That Ice Cream Our Friend C. M. Dooley Sent Us Yesterday Was Certainly Delicious.

Ding-a-ling-a-ling.
The telephone jingled merrily.
Ding-a-ling-a-ling-a-ling.

"Hello."
"Hello."

"This the Ledger Office? Well watch the next car."

"Who is this?"

"Dooley. Good-bye."

So we hid ourselves to the door and waited patiently for the next car. It soon came along and the conductor delivered to us a freezer full of Col. C. M. Dooley's best ice cream.

And say, that was sure some fine ice cream. You have to hand it to our friend Dooley for making delicious ice cream. One has no idea what a bright spot that created in the Ledger office for the rest of the afternoon. Even the fellow whose girl has thrown him over (?) brightened up and grinned with the rest of the bunch.

The treat did not last very long as the entire bunch was soon ready with spoon and saucer to make way with it. We are reminded of the little "pome," Like a snowflake on the river. One moment seen, then gone forever, leaving behind very pleasant memories of the splendid treat of Col. Dooley.

The sincere thanks of the entire Ledger force are extended to Mr. Dooley for his consideration and generosity in remembering the bunch.

Included in the Maysville group are the churches at Maysville, East Maysville, Tollesboro, Vanceburg, Wallingford, Sardis, Mt. Olivet and Germantown. TIME FOR ACTION

It is all well enough and perfectly proper to put out the flag and have patriotic meetings, but this will not lick Germany. The real thing to do is for those men who are of military requirements to walk up to a recruiting office and enlist in defense of their country and at once go into training so they may become just as soon as possible capable soldiers. Resolutions, speeches, parades, songs and hot air will never win the war. These give temporary encouragement and arouse the spirit of the people, and the one tonight we hope will arouse our young men to a full sense of their duty.

The thing to do is to enlist voluntarily. The writer hopes with all his heart that no Maysville young man will have to be drafted. Let's try to make a record for the good old town along this line. In after years when the present and the near future covering this war is written we would rather read in history that the Maysville boys volunteered in defense of their country and not one had to be drafted. Would not that be a glorious record? To be sure it would. So let's stop rallying with words, but rally with action. That is what it is going to take in this war.

We are not fighting Spain now or the Philippines, but we are facing the greatest military organization that the world ever saw and that organization is fighting with its back to the wall with the nations of the world against it. Even an animal at bay fights with greater savagery than when it has an open field. That little fraens in Cuba was nothing but a back-lot across the fence-mudthrowing in comparison to the war which we have but a few days ago entered. So it is well that we view the situation as it really is and manfully prepare for it now, not tomorrow or next week. Every moment lost means more blood-letting and greater suffering.

CARELESS IMMORALITY

There are plenty of people who would indignantly deny that they are dishonest and they are not so in the general understanding of the term; but a lot of folk will borrow an umbrella or a book and forget to return it. They don't mean to steal, but they do profit by an immoral action, by a careless failure to do what honestly and duty require them to do.

The book borrower is the worst offender. Of course he means to return the book, but he doesn't. Now, book lovers do not look kindly on this sort of person. To them every book has an individuality; it fills a place in the home; they know where to reach a hand for any well-liked volume, and when the volume is not there, they experience something of the feeling one has when a member of the family is absent from his accustomed place.

The Milwaukee Journal has something to say about borrowed books and those who borrow them, which will appeal to all owners and users of books:

"Have you borrowed a book? Read and return it. If you can not read it soon, return it and trust to your being able to borrow it again. In keeping it an unreasonable time, you may be keeping someone else from the pleasure of reading it. Look over your shelves and see what you have there that should be returned. The one who should borrow so little as a quarter of a dollar from a neighbor and fail to return it would not invite respect. Yet it is quite as bad not to return a book or a magazine that was worth returning. It should be clear that it is not yours but the property of another."

It hurts one to realize the loss of a good book. Perhaps the borrower has forgotten all about having it. He should not forget. He has just the same right to forget that he owes money.—Dayton (O.) Herald.

DON'T GIVE IN FOR MOUTHFUL OF BREAD, APPEAL TO GERMANS

Amsterdam, via London, April 22—An appeal to the German people not to give in for the sake of a mouthful of bread, but "to hold out only a little while longer," is printed in the Norddeutsche Allgemeine Zeitung. "America found out," says the statement, "that England will be beaten and she entered the war to save what she could of the money put into the munition business. Shall we let America reap the profit? Set your teeth and it will soon be over. Remember, all is at stake."

The Association of Christian Trade Unions of Berlin, in a manifesto, couples an affirmation of loyalty to the German emperor and empire with a strong condemnation of strikes, which it says "do not provide a single gram more bread and the enemy, like a drowning man, is grasping at the straw, eagerly watching for the least sign of disunion in Germany."

"Therefore," says the manifesto "all must stand pat."

TO PREVENT EYE STRAIN

An inventor in Columbus, Ohio, has recently placed on the market a device for eliminating eye strain caused by motion pictures. This result is sought by placing a filter screen directly in front of the ordinary lenses in the picture machine. Popular Mechanics Magazine describes the filter, which is made of especially treated glass and has a slightly amber hue. It is held securely in a metal frame and can be attached to any projecting outfit. All light from the electric arc passes through it on its way to the screen, thereby filtering out the ultra-violet rays which some believe to be responsible for the strain on the eyes that arises from viewing motion pictures.

All things come to him who waits—even to a weather man looking for a cool wave.

PADUEAH MAY BUILD PART OF AMERICA'S WOODEN FLEET

Paducah, Ky., April 22—It is not improbable that some of the one thousand wooden merchant ships for the United States Government will not be built in Paducah, according to Thomas C. Miller, of St. Louis, federal immigration inspector, who took a census of all local shipbuilders and cankers. He visited the plants of the Ayer-Lord Tie Company, the Paducah Marine Railway company and the West Kentucky Coal company. He left last night for Keokuk, Ia. In order to turn out the big fleet of ships the Government must enlist the services of shipbuilders all over the country. As there are facilities for building ships at Paducah contracts may be placed with local builders. This will not take the ship carpenters from their homes. Several hundred names were obtained here by Mr. Miller and he will visit other points in this part of the country.

THERE'S MANY A SLIP—but there's also a most efficient remedy. Dry cleaning is the panacea for spills and all such ills. We can remove away your stains and discolorations most efficiently and our prices appeal because they are entirely within the bounds of moderation.

Unique Memorial Completed

Mary Baker Eddy Memorial, Mt. Auburn Cemetery, Cambridge, Mass.

The beautiful memorial to Mary Baker Eddy, the Discoverer and Founder of Christian Science, has been turned over to The Christian Science Board of Directors by Elbert S. Barlow of New York City who held the contract for its construction.

The memorial, which is at Mt. Auburn cemetery, Cambridge, Mass., has required over a year and a half to complete. The fund for its construction, amounting to over \$150,000, was first announced by the directors in June, 1911, and was some time ago fully subscribed. These contributions have been made as expressions of sentiment by Christian Scientists throughout the world.

The site on which the memorial is located is not only one of great natural beauty, but on account of its grade has rendered possible a more picturesque and interesting treatment architecturally than would be possible on a perfect level lot. The plot, which is approximately 80 feet square, slopes gradually from the level of the roadway to the lake with a drop of about ten feet. The memorial consists of a circular open colonnade of eight columns, resting upon a stylobate of three steps, surrounded on the front by a circular platform slightly above the natural grade, from which platform a double flight of steps leads to a lower platform at the lake's edge.

The scheme has no prototype and is merely a screen of columns open to the sky, inclosing a flower-grown circle.

The material used for the memorial is Bethel white granite, the inscription in the frieze and upon the top of the pylons being of white bronze set deep into the stone work. The detail, which on account of the size of the reproduction is only indicated, is entirely floral in form and free in treatment, the wild rose and the morning-glory being used as the main motives. It is interesting architecturally to note that while it is extremely free in treatment and not at all conventional, it is generally very classic in feeling. The extreme width of the memorial is about fifty feet, and the colonnade is eighteen feet in diameter. The columns themselves are fifteen feet in height and are similar in general character to those in the Cleopatra of Andronicus of Cyrrhus. The large pylons were exhibited at the American Institute of Architecture in New York a short time ago and experts pronounced them the finest pieces of carved granite ever executed.

The architect is Egerton Swartwout of New York City who designed the new George Washington memorial, the new Missouri state capitol and the new Federal building in Denver.

WORK THAT TELLS

Plenty of It Has Been Done Right Here in Maysville.

To thoroughly know the virtues of a medicine you must investigate its work. Doan's Kidney Pills stand this test, and plenty of proof exists right here in Maysville. People who testified years ago to relief from backache, kidney and urinary disorders, now give confirmed testimony—declare the results have lasted. How can any Maysville sufferer longer doubt the evidence?

Henry S. Gallenstein, blacksmith, 124 W. Third St., Maysville, says: "My kidneys were out of order and I had pains through my back. Doan's Kidney Pills put an entire stop to the pains and my kidneys became well." (Statement given January 9, 1912.)

RESULTS THAT REMAIN

OVER FOUR YEARS LATER, on or November 14, 1916, Mr. Gallenstein said: "I haven't had any need of a kidney medicine since I last recommended Doan's Kidney Pills. The benefit they gave me has been permanent."

Mr. Gallenstein is only one of many Maysville people who have gratefully endorsed Doan's Kidney Pills. If your back aches—if your kidneys bother you, don't simply ask for a kidney remedy—ask distinctly for DOAN'S KIDNEY PILLS, the same that Mr. Gallenstein has twice publicly recommended.

The remedy backed by home testimony, 50c all stores. Foster-Milburn Co., Props., Buffalo, N. Y. "When Your Back is Lame—Remember the Name."

London, April 21—The Turkish government on Friday evening officially informed the American embassy that diplomatic relations with the United States had been broken off, according to a Berlin dispatch forwarded by Reuters' correspondent at Amsterdam.

American Ambassador Elkus, who is suffering from typhus fever, the report adds, will have to remain some time in Constantinople. The ambassador's condition has shown some improvement.

FIRST WAR SECURITIES ARE OVERSUBSCRIBED

Washington, April 21—The first American offering of war securities in any form, \$200,000,000 in treasury certificates, has been heavily oversubscribed.

How great the over subscription is officials were unable to say tonight as many of the banks before which the offer had been placed informally through the Federal Reserve Board had not been heard from.

The certificates were offered only to financial institutions. The response officials believe presages a patriotic outpouring of funds to an extent unparalleled in the history of any nation when the \$5,000,000,000 bond issue is placed before the general public.

Offering of the certificates were informally because the \$7,000,000,000 was finance measure is not yet a law. As soon as it is disposed of by Congress, probably by Wednesday of next week, the formal offer will be made and proceeds of the subscriptions called for at once.

The informal offering of the certificates has been before the banks of the country only three days. It was presented by the twelve Federal Reserve banks which will act as the government's authorized agent in receiving subscriptions. The certificates will bear three per cent interest and will mature June 30, the end of the current fiscal year. They may be used in lieu of cash in paying for subscriptions to the big bond issue and the date of their maturity indicates the belief on the part of officials that the \$5,000,000,000 bond issue will be floated by that time.

FOREMOST PHYSICIANS AND SURGEONS STUDY DEFENSE

Washington, April 22—Medical problems created by the war were taken up here today by the general medical board of the Council of National Defense. Under the direction of Dr. Franklin Martin, the board is serving as an advisory body to the council's medical section. Its membership comprises some of the country's foremost physicians and surgeons.

Plans are being worked out to give the country an efficient war time medical service not only in the military and naval establishments, but in civil lines as well.

STATE BOARD TO PRONE COVINGTON, NEWPORT RATES

Frankfort, Ky., April 21—To adjust the fire insurance rates in Covington and Newport so that they will be satisfactory the State Insurance Rating Board will meet in those cities next week. The rates on term policies are the chief cause of trouble. The residents carrying the big insurance policies claim that the rates have increased out of reason. So many complaints have been lodged with the board that it is deemed best to investigate the situation personally.

ARGENTINE BREAK WITH GERMANY IS EXPECTED

Buenos Aires, April 21—El Diario says that the government probably will break off relations with the German minister tomorrow as there is no hope of obtaining satisfactory explanation or indemnification of the sinking of the Monte Protegido. It adds that Argentina will then join the nations fighting for liberty, civilization and democracy.

There is a persistent rumor here that the Argentine sailing ship Oriana has been sunk by a submarine in the Mediterranean. Confirmation or denial of the rumor is awaited with great eagerness.

There is a report also that the Argentine steamer Churruarín, a vessel of 1,827 tons, has been sunk. No news of her arrival at her port of destination has been received thus far.

It was announced officially on April 13, that the Monte Protegido had been sunk by a submarine off the European coast. The submarine fired on the ship wounding a member of the crew. The news caused great excitement in Argentina and demonstrations against Germany were organized.

A Buenos Aires dispatch April 11 said there was a report in Buenos Aires that the ship Oriana had been sunk by a German raider off the coast of Brazil.

ARGENTINE PATRIOTISM LAUDS U. S. AND ENTENTE

Buenos Aires, April 22—Enthusiastic demonstrations were held here today in support of the cause of the United States and the Entente Allies in the war. One hundred flags marched through the streets singing the Marseillaise and shouting for the United States, France and the other Allies.

A great mass meeting was held which was addressed by various speakers and a resolution was adopted protesting against the violation of the rights of nations by the Germans in sinking steamers and expressing complete harmony with the attitude of the United States and Brazil, sympathy with the Allies and gratification at the triumph of the Russian revolution.

THE GREAT DIVIDE

The woman in the prime of life need not dread to meet the loss of her youth when growing elderly. While some charms dimish, others should replace them—charms of experience, cultivation, wisdom. The great physical changes meet between the fortieth and fiftieth year are indeed serious, and are not always well borne. In the strain of modern life, few women are in condition to meet these changes without some apprehension of deranged health. But with the excellent help of Lydia E. Pinkham's Vegetable Compound, that old, trustworthy woman's medicine to enter later life as well and robust as ever.

SWITZERLAND FEARFUL OF AMERICAN EMBARGO

Berne, April 22—Telegrams stating that the United States Congress is considering the question of restricting exportations from the United States to neutral countries are prominently displayed in the Swiss press, the neutral organs of which protest against any curtailment and point out the serious consequence for Switzerland if such a step is taken. These newspapers say the increased importations of grain to Switzerland from America are not due to re-exportations to Germany, but are the result of the inability to procure normal peace time supplies of foods from Russia and Roumania.

Automobiles ought to remember that their mission is not to depopulate the world.

ADVERTISING METHODS OF HOND ISSE DECIDED

Washington, April 22—A nationwide advertising campaign of extraordinary scope, has been decided upon by Secretary McAdoo as the most effective means of disposing quickly of the \$5,000,000,000 bond issue soon to be offered to the public.

So many patriotic offers of aid have poured into the Treasury Department recently that practically every method of publicity in the country will be at the government's disposal without charge, in helping to make the issue a success.

Newspapers, magazines, street car advertisements, even the bill-boards soon may be preclaiming the issue in big type and simultaneous every American to do his duty to his country by subscribing. Large advertising agencies have offered their service, free of cost, inviting the advertisements and otherwise assisting in the campaign.

Many newspapers have opened their advertising columns with no charge. Officials have welcomed such offers and expect others of a similar nature. There will be no general campaign of paid advertising it was said authoritatively tonight, nor the incurrence of any means of expense whatever that are not absolutely essential, the administration's desire being that the issue may be placed at the least possible cost.

An appointment is a contract, expressed or implied, and he who does not keep it breaks faith, as well as dishonestly uses other people's time and thus inevitably loses character.
